About Emsiso

Emsiso is a fast growing, 18 years old research and development company. Emsiso have in the last years made a transition from general R&D company of embedded system design into a company that offers motor control, power steering and automotive solutions.

Nowadays company is recognized as one of the leaders in the field of motor control and development of electronic devices in the automotive industry. Company is operating worldwide with the major market in EU. In Slovenia we are cooperating with the most well-known brands from automotive, and in the field of vehicle electrification with the focus on motor control.

In parallel with the contracted development projects Emsiso have its own product line under worldwide recognised emDrive® brand name, which we would like to expand even further.

Currently Emsiso employs 40+ highly skilled employees, mostly with Electronic or Computer technology background.
